PROGRAM DETAILS

The Citizen's Police Academy is a nine week program designed to give the participants a working knowledge of the law enforcement function within Ulster County. It consists of a series of classes and discussions held once a week, in the evenings, from 6:00 p.m. until 9:00 p.m. Class size is limited to approximately 40 attendees. There is no cost to anyone who enrolls.

The classes will provide an in-depth view into various aspects of law enforcement. It is an educational and informative program that allows citizens the opportunity to learn about the issues that affect law enforcement efforts in Ulster County, and how to develop a partnership with law enforcement. This program also allows the participants a unique "hands-on" opportunity in a variety of law enforcement tasks and responsibilities.

Each week we also feature a "Meet the Chief" session at the beginning of each class. Police chiefs and other law enforcement agency heads from throughout the county will be present to discuss their agency's current initiatives.

Goals

- To create a better understanding and communication between the citizens and police through education.
- To develop a partnership between the citizens and police in order to establish a safer community.

Benefits

When residents take a more personal interest in the protection of their community and neighborhoods, they will enjoy a safer and closer relationship with their neighbors. Upon completion of the course, graduates receive a diploma and a class photo.

Session #9

Who Can Attend?

Individuals who apply for the Citizen's Police Academy must be at least 18 years of age. They must also live, work, or own property in Ulster County.

Why?

Community Oriented Policing plays an important and vital role in reducing crime in any community. Therefore, the Ulster County Law Enforcement Training Group and Ulster County Community College instituted the Citizen's Police Academy to improve communication and obtain input and support throughout the county. It is our hope that the graduates will become partners with us in identifying problems and solutions to the crime issues that are affecting our community. Graduates will take their knowledge back into their neighborhoods where they can use it to enhance the quality of neighborhood life.
